

Class 4

Subject	Sentence explaining curriculum
English	Our work this term focuses on explanation writing. We will be sharing the book, 'Until I Met Dudley', and creating our own imagined and real explanations. We will finish the term using a variety of drama techniques to explore character in the book, 'Fly, Pigeon Fly'.
Maths	This term we will be focusing on fractions. We will learn how to find equivalent fractions and how to use these to order, compare, add and subtract fractions. We shall also look at multiplying and dividing fractions before starting our work on percentages. We will also be focusing on area and perimeter and developing our ability to construct and interpret a range of charts and graphs.
Science	In science this term, we will finish our work on electricity and will learn the electrical symbols for components and how to use these to draw circuit diagrams. We will then commence a unit on Evolution and Inheritance.
Humanities	This term's Humanities will continue our journey around the world to visit contrasting biomes. Through this work, we will be further developing our learning skills by undertaking independent research and working with partners and in groups to present our learning in different ways. Our locational knowledge is impressive but we still have places to explore so our weekly quizzes will continue.
RE	Children will learn a range of creation stories from world religions. They will sequence, compare and contrast the stories throughout the unit.
Art and Design Technology	This term we will be designing and making a clock – this will support the work we are doing in English as we will be writing an explanation of how a clock works.
Computing	We will start the term by completing E-safety lessons to ensure we know how to stay safe online. We will then complete our work on MS Word.
Music	This term we will be continuing our learning about how music creates pictures and tells a story to the listener. Through this, we will further develop our understanding of timbre and use different instruments to create our own pictures and stories.
PE	Class 4 will be doing tennis and Health Related Fitness this term. We will be learning techniques such as forehand, backhand and serving during our tennis lessons. During our Health Related Fitness sessions, we will be taking our heart rates and learning types of training and their principles.
Modern Foreign Language (KS2)	We will continue to broaden our vocabulary and begin to write sentences. We will also continue to enjoy stories and poems.
